

## Bristol

If I were to be confined to only one car regardless of expense, I would not hesitate to get a Bristol. Deciding which might take longer. Seeing cars being built, on a prep school half term outing to Filton, was a bit tame after being shown the works in the Brabazon mock-up, but at my senior school my taste in cars began to mature. The headmaster's father-in-law was the Bishop of Bath & Wells. After the latter's death, a 403 (recognisably BMW inspired) appeared in the school quad. I used to think it was some bishop to have driven that car!
