

Ford Transit Van

Mr Royce laid out his basic body dimensions with four men on four upright chairs, but for the last half century no one has done anything as sensible. Instead they cram standardised dummies (or computer avatars) into as small an envelope as they can and then dare to call it a four seater. Enter the Transit I hired for a 400 mile round trip. You sit up, your legs a little forward of straight down and cannot fail to be comfortable and ache free. What's more that solid bar of metal sprouting from the floor give a perfectly precise gear change.
