

## Henry VIII

Cardinal Wolsey had the Duke of Buckingham arrested on charges of treason, tried and executed. Add to that harsh taxation, allowing his private incriminating papers be intercepted by the King, high ambition and, most seriously, obstructing the King's desire to marry Ann Bullen and the result was Wolsey's fall from office. Ironically it was at a dinner thrown by Wolsey that the Henry first laid eyes on Anne. Henry gets his divorce and marries Anne. Archbishop Cranmer is subjected to a plot and brought to trial, but is exonerated by Henry and christens his new daughter, Elizabeth, foretelling her glorious reign.
