

### Jaguar 2.4 & 3.4

If the owner of Gawesworth Hall were not a car enthusiast, I would claim the world speed record from there to Congleton fire station and back. The road is full of overtaking straights ending in sudden blind bends. My sister had lodgings at Gawesworth and an admirer arrived proudly one day in his new Jaguar; and how better to get rid of the brother than to give him the keys. When the 3.4 (or 8) came out I published a letter in Motor Sport to the effect of: "Congratulation to Jaguar on making the world's fastest 4-door 2-seater go even faster."
