

## Lotus Elise

If I were allowed just one car for the sheer exuberant fun of driving, it would have to be the Lotus Elise. I went to a Lotus open day at Oulton Park to publicise the Elise. We took turns to have several laps with a Lotus staff member as passenger and tutor, and on the final turn he showed how it ought to be done. Once seated you held out your hands and there were the wheel and gear lever. Once on the move you simply have to think and the car responds and goes precisely where and how you want.
