

the £100 Morris Minor

This was the original £100 car. My mother and uncle had a new one in 1931 and called it Cuthbert. In 1957 a friend & I bought a 1932 model and we too called ours Cuthbert. We decoked it in the street by our London digs one February and spent the next Easter vacation rebuilding it. When my friend moved on I bought his share and ran Cuthbert for another five years. Its abysmal acceleration and brakes did not stop us from crossing passes in Switzerland, but they taught me to look ahead. Your first car is like your first love.
